CATALOGUE ESSAY

Designed by the famed Gilles Vaton with a functional four guest cabin layout, BAIURDO VI, formerly ARRAYAN II, was built for an experienced yachtsman at the unrivalled Abeking & Rasmussen shipyard in Germany.

With the goal of circumnavigating the globe, she immediately proved her sophisticated abilities by completing a world tour whilst continuing to win a number of superyacht regattas in between; a tradition that was carried on by her current owner.

Renamed BAIURDO VI in her current ownership, she combines relaxed family and charter cruising with high-performance racing, a disarming quality for a true sailor looking to win on the superyacht racing circuit.
