FEATURES

The SEABOB can be equipped with integrated camera technology on request. Thereby, two camera systems are integrated in the SEABOB. There is a full-HD camera as a recording system in the watercraft's bow. This camera films and saves everything experienced and discovered in the fascinating underwater world at the push of a button. Another full-HD camera is found on the information display. This camera is an integrated Action-Selfie-Cam and is activated by simply pressing a sensor. It saves all of the pilot's recordings when driving the SEABOB. With the recording technology switched on, the SEABOB information display performs the monitor function. This allows all camera recordings to be professionally controlled. All recordings are saved in the SEABOB on-board system and can be directly transmitted to any Smartphone or other alternative storage media with WLAN technology. With the SEABOB-Camsystem, you can always share your unique experiences in the fascinating underwater world with others at any time.

OPTIONS

- The Chrome Package makes a unique statement: Display and tail in a matt-chrome design; tail ring chromium plated.
- Black Package: Tail, display console and tail ring in matt black design.
- The SEABOB serial colours have a robust surface. They are protected against high wear thanks to a special surface technology.
- High-gloss surfaces Bicolour and Big Label Design.
- The Lumex Bright Colours are high-gloss surfaces in intense luminous colours, All high-gloss coloured surfaces are created by hand using high-quality multiple-layer paint systems.

One particular distinguishing feature of the SEABOB F5 is its extremely low weight. Tipping the scales at just 29 kg, the craft boasts a propulsive force of 480 newtons. The E-Jet Power System in the SEABOB F5 is controlled in 4 power levels. These increments lend it a sporty character and guarantee absolute fun and pleasure. Its special degree of dynamism in the water results from the high performance of the craft coupled with the low power-to-weight ratio.

The outstanding properties of the SEABOB F5 in terms of handling make it suitable for use in water anywhere. It is at home in the sea. It demonstrates outstanding performance on the surface of the water and when diving. Owing to its extremely high degree of manoeuvrability, the SEABOB F5 can be enjoyed in both small and large pool complexes.
