Weight - 9'0 Kg (21'50)
Volume - 144 l (31'6 Gal)

DESCRIPTION

- The Phenix LTD comes with a tinted resin and bamboo finish.
- On these boards we've accentuated the pintail to make them even better in the surf. That being said, the Phenix still remains our go-to allround SUP hard board. Ideal for beginners to intermediate riders or anyone looking for a SUP they can use both on flat water as well as in the waves. Rideable as a single fin or 2+1.
- With a slightly raised vee around the fin area the Phenix boards are easy to turn and the bottom of the board is relatively flat, which increases glide over flat water and will help you catch waves more easily.

TECHNICAL INFORMATION

- Double bamboo sandwich / wood innegra construction
- Tri-axe fiberglass
- EPS HD foam core
- Central PVC stringer
- Extra PVC reinforcement around the fin boxes, the carry handle and under the feet.
- The board comes with a set of RWP fiberglass fins (US and standard Future) and full deck pads.

CATALOGUE ESSAY

The Phenix LTD is an allround SUP surfboard ideal for flat water paddling as well as progressing in small to medium waves.

Double bamboo and PVC sandwich construction, tinted resin finish, full deck pads, single or 2+1 fin set up.
