CATALOGUE ESSAY

Delivered in 2010 by Bayards Shipyard, she was custom-built for the existing owner. Designed by the world famous naval architects Dubois, this sloop-rigged sailing yacht has been designed to optimise comfort on board. With an aluminium hull she offers great stability at sea. Featuring simplified sailing systems, she is rigged for short-handed world cruising. Damahwil boasts a large interior volume, and can comfortably accommodate up to eight guests in four elegant cabins, including one full-beam master suite, each with ivory leather headboards. Beautifully designed to a very clean, luxurious style, her interior has a hint of Thai undertones. Teak furniture and neutral floorboards and walls run throughout creating an uncomplicated and bright space. Comprising of two decks, one of which is the sleek raised deck saloon, Damahwil also includes a large rugged Arctic RIB tender, stowage forward of the mast, and a large fold down bathing platform for diving and tender embarkation. This trans-oceanic world cruiser features a Caterpillar diesel engine and cruises at 12 knots.
