## CATALOGUE ESSAY

A masterpiece of modern design, the 262.47ft /80m Custom motor yacht EXCELLENCE was launched by Abeking & Rasmussen in 2019. Winch Design is responsible for her futuristic exterior design and contemporary interior styling. One of the defining characteristics of EXCELLENCE is her unique exterior design, which has been compared to a spaceship. Penned by Winch, her iconic profile features a reverse bow and sharp lines which work to blend the hull with the superstructure to create a unique and eye-catching silhouette. The expanses of mirrored glazing across her superstructure further add to her visionary good looks. The final effect is not only attractive to the outside viewer, but the wide sections of glass also provide stunning vistas over the surroundings. Abeking & Rasmussen have stated that glass has never been installed in these dimensions on one of their superyachts before, marking an impressive first for the German yard. Winch has ensured a perfect harmony between the yacht's innovative exteriors and her cool and contemporary interior design. Her social spaces are infused with natural light, with a triple-height glass atrium taking centre stage. The space serves as the social hub during charters, providing an unparalleled setting for enjoying the company of the entire charter party while still feeling connected to the outside world. The motor yacht is also home to a tiered cinema for indulging in movie nights at sea, as well as a spa with sauna and well-equipped gym facilities. All of which these sumptuous features can be found on the main deck.
