CATALOGUE ESSAY

The opulent 80m (263ft) superyacht ELEMENTS was built in 2018 by Yachtley. The yacht's sumptuous interior has been designed by Cristiano Gatto Design and she boasts impressive exterior styling by Alpha Marine. This motor yacht is characterized by her glamorous interior: sleeping up to 24 guests across 12 staterooms, a thrilling multitude of materials, from mother-of-pearl inlays to backlit onyx are used throughout the yacht. Her grandeur is heightened by her master suite, which can become a sprawling family apartment complete with its own Jacuzzi, bar, cinema and office if the VIP cabin on the same floor is converted. She also features 5 double cabins and 5 twin cabins, with the capacity for up to 25 crew members. She has no shortage of magnificent entertainment options for yacht charter guests. Her beach club, clad with a hammam and massage room commands your attention. Plus, she features a fabulous armada of water toys whenever the delights of the open water beckons. Built with a steel hull and aluminium superstructure, she offers greater on-board space and is more stable when at anchor thanks to her full-displacement hull. Powered by twin MTU engines, she comfortably cruises at 15 knots, reaches a maximum speed of 18 knots with a range of up to 10,000 nautical miles from her 270,000 litre fuel tanks at 12 knots. An advanced stabilisation system on board reduces the side-to-side roll of the yacht and promises guests exceptional comfort levels at anchor or when underway.
