CATALOGUE ESSAY

LUXI 95 is a 28.95 m / 95'0" luxury motor yacht. She was built by Cantiere Savona in 2020. With a beam of 7 m and a draft of 1.35 m . LUXI95 is a new concept of wide body superyacht with the possibility to change from a full planing mode to the semi planing mode. Infinite spaces, huge lateral windows, endless light and harmony - a perfect mix between experience and innovative technology. As an option, LUXI95 can be equipped with SYT (Solar Yacht Technology), ensuring the electric energy for propulsion plus lower energy consumption. In addition, a high-tech brise-soleil in the owner's suite represents an unconventional design element. A real revolutionary concept of space; the flybridge deck area is the biggest in the market compared to similar size yachts. The owner's suite is an elegant private spa on the sea. She is powered by 2 x1900MHP with Hybrid engines giving her a maximum speed of 28 knots and a cruising speed of 24 knots. The motor yacht can accommodate 10 guests in 5 cabins.
