- Double Rooms -
- Twin Rooms -
- VIP Rooms - 1

## CATALOGUE ESSAY

The Hanstaiger X1 is a stunning, striking, limited-edition yacht with a multitude of exceptional features and a further array of customization options available. The yacht clocks in at 72' (22m) in length. She has a 10-meter beam and a .92-meter retractable centerboard. Hanstaiger X1 has a 40-ton maximum displacement. Her outdoor spaces have an area of 77-meters squared including her 30-meter squared flybridge and 27-meter squared beach club extension. The hull of the Hanstaiger X1 is created out of one single piece of vacuum-infused high-grade mould, which comprises fiberglass, carbon and titanium. The superstructure of the Hanstaiger X1 is constructed entirely of carbon fiber with solar panels that are integrated into the superstructure. The main deck of Hanstaiger X1 is on a single level, with the exception of the owner's stateroom, running the length of the yacht and separated into sections: the owner's suite, two VIP staterooms and two crew staterooms. Furthermore, there is a large 72-square-meter lounge space that comprises the yacht's main salon and galley. The owner's suite also is divided into sections. These include an upper level with a large bed and an office, a mid-level where the en-suite bathroom with his-and-hers sinks, a dressing table, a hydromassage cabin and sauna are found, and a lower level with a large glass dressing room and another WC. One VIP stateroom is located to port. It features a comfortable bed, a sofa and a large en-suite bathroom. The second VIP is located to starboard. It has two reclining beds, a roll-up TV, a private dressing room and an en-suite bathroom. The decks of Hanstaiger X1 are open and welcoming, featuring two corridors that provide access the rest of the yacht. The flybridge features a variety of seating options, including lounge chairs and sofas. A Jacuzzi, barbecue and an alfresco dining table for 10 guests also is found here. Some of the most unique features of Hanstaiger X1 include gullwing roof windows, a sea viewing glass floor located in the lounge, high-grade low-maintenance flooring and more.
