CATALOGUE ESSAY

The 51m/167'4" motor yacht 'Atlas' (ex. Aldabra) was built by Codecasa in Italy at their Viareggio shipyard. Her interior is styled by design house Della Role Design and she was completed in 2011. This luxury vessel's exterior design is the work of Codecasa and she was last refitted in 2016. Atlas has been designed to comfortably accommodate up to 12 guests in 6 suites comprising one VIP cabin. The supremely spacious full beam master suite incorporates its own study. She is also capable of carrying up to 11 crew onboard. Her features include an elevator, gym, deck jacuzzi, WiFi and air conditioning. Built with a steel hull and aluminium superstructure, with teak decks, she benefits from a semi-displacement hull to provide exceptional seakeeping and impressive speeds. Powered by twin diesel Caterpillar (3516B) 2,447hp engines, she comfortably cruises at 14 knots, reaches a maximum speed of 17 knots with a range of up to 6,400 nautical miles from her 90,000 litre fuel tanks at 14 knots. An advanced stabilisation system on board promises exceptional comfort levels at anchor or on any voyage. Her water tanks store around 17,800 Litres of fresh water. She was built to Lloyds Register classification society rules, and is MCA Compliant.
